2. F U	RTHER ACTI	ION						
wri the Inte	If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA"). However, this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notifed the International Bureau under Rule 66.1 bis(b) that written opinions of this International Searching Authority will not be so considered.							
sul mo	If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.							
Fo	r further optior	ns, see Form P0	CT/ISA/220.					
3. Fo	r further detail	ls, see notes to	Form PCT/ISA/220.

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/GB2004/002136

_		
_	Box N	lo. I Basis of the opinion
1.	With r	egard to the language , this opinion has been established on the basis of the international application in nguage in which it was field, unless otherwise indicated under this item.
	la	his opinion has been established on the basis of a translation from the original language into the following inguage—, which is the language of a translation furnished for the purposes of international search under Rules 12.3 and 23.1(b)).
2.	With r	egard to any nucleotide and/or amino acid sequence disclosed in the international application and sary to the claimed invention, this opinion has been established on the basis of:
	a. type	e of material:
		a sequence listing
		table(s) related to the sequence listing
	b. forn	nat of material:
		in written format
		in computer readable form
	c. time	e of filing/furnishing:
		contained in the international application as filed.
		filed together with the international application in computer readable form.
		furnished subsequently to this Authority for the purposes of search.
3.	ha Co	addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto as been filed or furnished, the required statements that the information in the subsequent or additional opies is identical to that in the application as filed or does not go beyond the application as filed, as oppropriate, were furnished.
4.	Additio	onal comments:

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/GB2004/002136

_	Box	No. II	Priority					 			
_					·						
1.	⊠	The following document has not been furnished:									
		☒	copy of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(a)).								
			translation of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(b)).								
	Consequently it has not been possible to consider the validity of the priority claim. This opinion has nevertheless been established on the assumption that the relevant date is the claimed priority date.								nis opinion has ed priority date.		
2.	This opinion has been established as if no priority had been claimed due to the fact that the priority claim has been found invalid (Rules 43 <i>bis</i> .1 and 64.1). Thus for the purposes of this opinion, the international filing date indicated above is considered to be the relevant date.										
3.	Additional observations, if necessary:

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (SEPARATE SHEET)

International application No.

PCT/GB2004/002136

Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Subject: Method and controller for a vehicle drive train

Closest prior art: WO-A-90/05860 (referred to as EP-A-444 086 in the description) discloses a controller for a drive train according to the preamble of claim 1 and a corresponding control method

Problem: to achieve a faster vehicle launch

Solution: by the characterizing features of claim 1 and the corresponding method features as in claim 7. The claimed combination(s) of features are not known from, nor are they rendered obvious by the available prior art.

Thus claim 1 (apparatus), claim 7 (method) and dependent claims 2 to 6 and 8 to 11 meet the requirements of Articles 33(2) and 33(3) PCT.
